

FEDERAL OCCUPATIONAL HEALTH

Workers' Compensation Management

FOH has the experienced professionals to help Federal agency customers manage workers' compensation claims and identify potential cost savings. Through our program we offer comprehensive workers' compensation management services.

Studies have shown that effective case management, efficient administration of new claims, and deliberate review of long-term cases contribute to improvements in recovery times, decreases in the total number of lost production days, and an overall reduction of workers' compensation costs.

What services can FOH Workers' Compensation Management provide for my agency?

Some services that our Workers' Compensation Management program can provide include:

- Long Term File Reviews
- Agency Medical Exams
- Claims Administration
- Case Management
- Program Analysis
- Return to Work Planning
- Board Certified Medical Advisors
- Expert Consultation

To which Federal agencies do you offer services?

We offer our Workers' Compensation Management services to all Federal agencies.

Some current customers:

- Department of Justice
- Department of Education
- Federal Deposit Insurance Corporation
- Internal Revenue Service
- Department of Agriculture
- Environmental Protection Agency
- Bureau of Engraving and Printing

What are the benefits?

- Individualized approach for every agency
- Access to experienced medical professionals
- Simple and flexible service delivery method using the Interagency Agreement (IAA)

"The FOH staff, from the doctors, nurses, and the administrators of the program, show a firm dedication to their services. We would highly recommend them as a partner."

Program Specialist,
U.S. Department of Labor
