

Commander Robert Gibbs

Director, Environmental Health and Safety Services (EHSS)

Commander (CDR) Robert Gibbs serves as the Director of Environmental Health and Safety Services at Federal Occupational Health, a component of the Program Support Center (PSC) within the U.S. Department of Health and Human Services. In this role, he oversees the development and implementation of health and safety services to ensure that federal agencies comply with regulations set by the Occupational Health and Safety Administration. CDR Gibbs also leads environmental health and safety service response efforts for safety, health, or environmental incidents that require expert consultation and support. With his experience at PSC and as a registered environmental health specialist, CDR Gibbs is able to provide exemplary environmental health and safety services to PSC's federal customers.

CDR Gibbs is a Commissioned Corps officer in the U.S. Public Health Service and has been serving PSC as the National Capital Region Programmatic Lead and subject matter expert for Environmental Health and Safety Services. Prior to joining PSC, CDR Gibbs was a technical researcher for Booz Allen Hamilton. He holds a bachelor's degree in environmental health from Salisbury University and a master's degree in environmental science from American University.
