

Commander Tomas Bonome

Director, Federal Occupational Health

Commander (CDR) Tomas Bonome serves as the Director of Federal Occupational Health (FOH), a component of the Program Support Center (PSC) within the U.S. Department of Health and Human Services. In this position, he oversees clinical health, behavioral health, environmental health and safety, and wellness and health promotion services provided to the federal government. CDR Bonome has been with PSC for over four years, most recently serving as Chief of Staff at FOH.

Prior to joining FOH, CDR Bonome was the Special Projects and Initiatives Manager for the President's Council on Fitness, Sports, and Nutrition. In addition, CDR Bonome served as the Special Assistant to the United States Surgeon General, where he oversaw the daily affairs of the Surgeon General and coordinated implementation of the office's public health programs. He has also authored and coauthored numerous peer-reviewed publications and book chapters on an array of scientific topics.

CDR Bonome completed his bachelor's degree in molecular biology at Colgate University and received a master's degree in biotechnology from Columbia University. As a Commissioned Officer in the U.S. Public Health Service, he has earned a number of prestigious awards for his efforts to advance the health of the nation, including two Surgeon General Exemplary Service Medals.

Michelle Smith-Jefferies, MD, MPH

Medical Director, Federal Occupational Health

Michelle Smith-Jefferies, MD, MPH, serves as the Medical Director of Federal Occupational Health (FOH), a component of the Program Support Center (PSC) within the U.S. Department of Health and Human Services. She has over 25 years of extensive internal and occupational medicine experience and a history of establishing and implementing health and safety programs for federal government. CDR Bonome has been with PSC for over four years, most recently serving as Chief of Staff at FOH. Prior to that, Dr. Smith-Jefferies served as the Medical Director at the Police and Fire Clinic (PFC), an occupational medical clinic in Washington, D.C. From 2007 to 2011, she was the Special Projects Manager for the President's Council on Physical Fitness, Sports, and Recreation, and the Director of the Special Assistant to the Surgeon General and coordinated implementation of the office's public health programs. She has also authored and coauthored numerous peer-reviewed publications and book chapters on an array of scientific topics.

Dr. Bonome completed her bachelor's degree in biochemistry at Colgate University, earned her master's degree in public health from Johns Hopkins University, and completed a fellowship in occupational medicine at Johns Hopkins University. She is licensed to practice medicine in the District of Columbia, Maryland, and Virginia and is board certified in internal medicine and occupational medicine. She has been a certified medical review officer since 1995 and is a fellow of the American College of Occupational and Environmental Medicine.

Dr. Smith-Jefferies earned her bachelor's degree in biochemistry from Harvard University, a doctorate in medicine from Yale, and a master's degree in public health from Johns Hopkins University. She performed her internship in internal medicine at the Medical College of Virginia, received her residency training at Tufts University, and completed a fellowship in occupational medicine at Johns Hopkins University.

She is licensed to practice medicine in the District of Columbia, Maryland, and Virginia and is board certified in internal medicine and occupational medicine. She has been a certified medical review officer since 1995 and is a fellow of the American College of Occupational and Environmental Medicine.

Commander Tomas Bonome

Director, Federal Occupational Health Protection Services (WHPS)

Commander (CDR) Tomas Bonome, USN, is the Director of Federal Occupational Health Protection Services (WHPS) at the Program Support Center (PSC) in the Department of Health and Human Services. In this position, he oversees all health, behavioral health, services, and health and safety, government and health promotion services provided to the federal government. CDR Bonome has been with PSC for over four years, most recently serving as Chief of Staff at profit, and government organizations. Most recently, he served as the President and Chief Executive Officer (CEO) of Koda Associates, a consulting firm. Prior to joining PSC, CDR Bonome was the Special Projects and Media Initiatives Manager for the President's Council on Physical Fitness and Sports, and the President of the National Educational Telecommunications Association. He also served as the Senior Assistant to the United States Surgeon General, where he oversaw the daily affairs of the Surgeon General and coordinated implementation of the office's public health programs. He has also authored and coauthored numerous peer-reviewed publications and book chapters on an array of scientific topics.

CDR Bonome has also held several other positions in the Corporation for Public Broadcasting. As a member of the Public Broadcasting Service (PBS) Board of Directors, King Associates, and the U.S. Public Health Services, he has earned numerous awards, including a National Leadership Award, the U.S. Surgeon General's Exemplary Service Medal, and induction into the Vermont Association of Broadcasters Hall of Fame.

A native of Vermont, King is active in community and business initiatives throughout New England. He is a member of the Dartmouth-Hitchcock Medical Center Assembly of Overseers and serves on the Board of the McGill University International Executive Management Institute.

King holds an associate's degree in business administration from Champlain College, a bachelor's degree in business administration from Johnson State College, and a master's degree in public administration from Harvard University.

Bradley Christopher Bonome

Director, Federal Occupational Services (BHS)

Bradley Christopher Bonome is the Director of Behavioral Health Services at Federal Occupational Health (FOH), a component of the Program Support Center (PSC) within the U.S. Department of Health and Human Services. In this position, Brad is responsible for maintaining and health, providing the PSC with the resources necessary to support its mission and ensure the safety of occupational health services. Brad has been with PSC for over four years, most recently serving as Chief of Staff at FOH. These services include the Employee Assistance Program (EAP); organizational development and leadership — which includes organizational development, leadership coaching, and training initiatives; management of the President's Council on Fitness, Sports and Nutrition; and the OSHA evaluation program, the WorkLife programs. In his previous roles, Brad has coordinated the implementation of the office's public health programs. He has also authored and coauthored numerous peer-reviewed publications and book chapters on an array of scientific topics. Prior to joining PSC in 1999, Brad worked as a commercial diver and a diver medic on the oil platforms in the Gulf of Mexico. He then worked for several environmental and safety consulting companies in and around the Washington, D.C. area. Brad holds a Ph.D. in Public Health from the University of Maryland and a bachelor's degree in industrial technology from the University of Maryland. Brad is a member of the American Society of Safety Engineers. He holds an associate's degree in underwater technology from Florida Institute of Technology and a bachelor's degree in industrial technology from the University of Maryland.

Commander Robert Bonome

Acting Director, Federal Occupational Health and Safety Services (EHSS)

Commander (CDR) Robert Bonome serves as the Acting Director of Federal Occupational Health (FOH) Safety Services of the Federal Acquisition Support Center (FASC), (PSC) within the U.S. Department of Health and Human Services. In this position, he oversees clinical health, occupational health, environmental health, and safety services provided to the federal government. CDR Bonome has been with PSC for over 10 years, most recently as the Chief of Staff at FOH. He also leads environmental health and safety service response efforts for safety, health, or environmental incidents that require Prior Consultation (PC) and support. With his experience at PSC and as a registered environmental health specialist, CDR Bonome is able to provide exemplary environmental health and safety services to PSC's federal customers.

CDR Bonome is a former program manager for the U.S. Public Health Service and has been recognized by PSC as the National Career Region array of scientific topics and subject matter expert for Environmental Health and Safety Services. Prior to joining PSC, CDR Bonome was a technical researcher for Booz Allen Hamilton. He holds a bachelor's degree in molecular biology at Colgate University and received a master's degree in biotechnology from Columbia University. As a Commissioned Officer in the U.S. Public Health Service, he has earned a number of prestigious awards for his efforts to advance the health of the nation, including two Surgeon General Exemplary Service Medals.
