

Federal Occupational Health

Center for Organizational Development References

The organizational consulting services of FOH are designed to assist Federal agencies with team development, conflict resolution/mediation, and leadership development. Customized services allow our consultants to use their skills to assess the climate of a particular workplace, design interventions, and respond to employee and organizational needs as they arise.

HERE'S A LIST OF SOME OF OUR SATISFIED CUSTOMERS, SHOWING THE RANGE OF SERVICES WE CAN PROVIDE.

Program Centers for Disease
Control/OSELS/NCHS
ktm8@cdc.gov
(301) 458-4625
Nature of project:
Executive Coaching, Group
Coaching, Assessment,
Team Development,

In the Division of Administration, when we needed an organizational development consultant to help move along our customer service initiative, “Start with Yes!”, we naturally consulted our internal HHS experts in Federal Occupational Health (FOH). Priscilla Clark and her team provided professional, strategic and creative design and implementation guidance and support to our efforts, including employee survey administration and analysis, and the development of a video depicting the meaning of “Start with Yes!” I recommend the FOH Center for Organizational Development without hesitation to all of our federal colleagues in need of such services”

Assistant Secretary for Administration,
U.S. Department of Health and
Human Services

Priscilla W. Clark, PhD, PCC
